Listening: 8.5/9 Reading: 8.5/9 Speaking: 8/9
Writing: 7/9

Arabic_ Basic reading and comprehension

👤 Personal Details

Date of Birth : 25/07/1995

🎯 Objective

I am highly motivated by challenging opportunities in which detecting and solving new problems using my current or to be learned skills to help animals, humans and the environment is of importance.

📅 Experience

Kimia Veterinary Clinic

May 2023 -

Associate Veterinarian

Present

Team leadership, management of patients' care in a Mixed animal practice, more focus on Avian, Exotics and Wildlife.

I specially enjoy working on:

1. Difficult and complex cases,
2. Investigating unknown epidemics or diseases with no background history
3. The relation of animals' health with environmental factors and humans (owners)
4. Psychological characters and behavior of humans and animals as "why they do what they do after mental trauma"
5. Understanding human behavior and how we perceive our effect on nature.

I strongly believe in a "One Health" method of viewing my clinical cases and all the other natural problems.

Aran Veterinary Clinic

October 2020 -

Associate Veterinarian

May 2023

One Health lesson

October 2021 -

Lesson leader

June 2022

Voluntary work, teaching lessons about the importance of the "One Health" paradigm to children and the general public.

Aran Veterinary Clinic

June 2017 -

Veterinary assistant

June 2020

Handling and restraint of different species, drug calculation and administration, anesthesia monitoring and post-surgical followups

Shiraz Veterinary College Hospital

Jan 2018 -

Veterinary Intern

Dec 2019

Coordinating the treatment plans, researching the topic, proposing different courses of treatment and following up on our patients, in avian, small & large animal internal medicine and surgery, hematology, clinical pathology, pathology and necropsy, microbiology and parasitology rotations.

Shiraz Veterinary College Hospital

May 2017 -
