

Shiva Hemmati

Personal Information:

First name: Shiva

Last name: Hemmati

Mailing address: Department of Pharmaceutical Biotechnology, School of Pharmacy, Shiraz University of Medical Sciences, Shiraz, Iran.

Tel: +98-71-32424127, **Fax:** +98-71-32424126

E-mail: hemmatish@sums.ac.ir

Website: <http://pharmacy.sums.ac.ir/en/departments/pharmaceutical-biotechnology/Shiva-Hemmati.html>

Academic Position:

March 2018-Present: **Associate Professor**, Department of Pharmaceutical Biotechnology, School of Pharmacy, Shiraz University of Medical Sciences, Shiraz, Iran.

November 2012-February 2018: **Assistant Professor**, Department of Pharmaceutical Biotechnology, School of Pharmacy, Shiraz University of Medical Sciences, Shiraz, Iran.

Education:

March 2008-March 2011: **Postdoctoral Fellow**, Department of Biochemistry, Purdue University, West Lafayette, Indiana, USA.

November 2003-November 2007: **Ph.D.** in Natural Sciences, Plant Molecular Biology, Institute for developmental and molecular Biology of Plants, Heinrich-Heine University, Duesseldorf, Germany.

1996-2003: Pharmacy Doctorate (**Pharm.D.**), School of Pharmacy, Shiraz University of Medical Sciences, Shiraz, Iran.

Research Interests:

- Protein delivery by penetrating peptides.
- Thermostable industrial enzymes.
- In silico* genome wide analysis.
- Characterization of the biosynthetic pathways of secondary metabolites.
- Sustainable biofuels: Manipulation of lignin biosynthesis to maximize cell wall digestibility and ethanol production.

Publications:

- 1) Sadeghian I, Khalvati B, Ghasemi Y and **Hemmati S**. TAT-mediated intracellular delivery of carboxypeptidase G2 protects against methotrexate-induced cell death in HepG2 cells. *Toxicology and Applied Pharmacology*, 2018, 346: 9-18

Ph.D. Dissertation:

Biosynthesis of lignans in plant species of section *Linum*: pinoresinol-lariciresinol reductase and justicidin B 7-hydroxylase. (Heinrich Heine University, Dusseldorf, Germany)

Pharm. D. Dissertation:

Establishment of in vitro cultures of *Linum album* and screening for high lignan producing lines. (Shiraz University of Medical Sciences, Shiraz, Iran)

Abstracts and Congress Presentations:

Hemmati S. *In silico* genome wide analysis of aquaporins in *Musa acuminata*. The 7th Congress on Bioinformatics, Tehran, Iran, January 2018

Owji H, **Hemmati S**. Alumina nanoparticle interaction with hairy roots of *L. persicum*. Asian Nano Forum Conference, Kish Island, Iran, March 2015.

Owji H, **Hemmati S**. Effect of nanoparticles on transgenic plant cells. IPSS, Tabriz, Iran, October 2014.

Owji H, **Hemmati S**. Elucidation of the biosynthetic pathway of phytoestrogen like molecules by Arabidopsis genome mining. IPSS, Kermanshah, Iran, October 2013.

Alipour M, **Hemmati S**. Biosynthesis of phytoestrogens in *Punica* sp. IPSS, Kermanshah, Iran, October 2013.

Zandian S, **Hemmati S**. Effect of elicitors on the biosynthesis of lignans in *Linum persicum*. IPSS, Kermanshah, Iran, October 2013.

Hemmati S. Reductases in *Linum* species. In: Workshop der Graduierten Kollegs Molekular Physiologie, Debringhausen, Germany, June 25-27, 2004.

Hemmati S, Alfermann AW, Fuss E. Diversity of lignans in *Linum* species. In: Future trends in phytochemistry, Gargnano, Italy, May 5-8, 2004.

Hemmati S, Mohagheghzadeh A, Alfermann AW. Quantification of aryltetralin lignans in plant parts and ontogenic stages of *Linum album*. In: Phytochemistry and biology of lignans, Bornheim-Walberberg, Germany, April 6-9, 2003.

Hemmati S, Mohagheghzadeh A, Alfermann AW. *In vitro* cultures of *Linum album* and screening for high lignan producing lines. In: Future trends in phytochemistry, Gargnano, Italy, May 22-25, 2002.

Honors and Awards:

Distinguished Assistant Professor, Shiraz University of Medical Sciences, May 2015, Shiraz, Iran.

Postdoc. scholarship from “The Global Climate and Energy Project” (led by Stanford University), Department of Biochemistry, Purdue University, West Lafayette IN, USA.

Ph. D. scholarship from “Gesellschaft von Freunden und Förderern der Heinrich-Heine Universität Düsseldorf (Duesseldorf Entrepreneurs Foundation), Duesseldorf, Germany.

First prize winner from the president (Outstanding pharmacy student-2002).

Technical Skills:

Gateway cloning technology, Western blot analysis, Plant Cell, tissue and organ culture and basic molecular biology techniques such as PCR, electrophoresis, etc. Gene silencing via RNAi, transformation by binary vectors, genomic southern analysis, floral dip transformation, genotyping T-DNA knock out lines. *In silico* genome wide analysis. Analysis of plant cell wall polymers. Experience in chromatography and spectroscopy techniques: LC-MS, HPLC, Column and chiral chromatography, UV-VIS.

Teaching Assignments:

Molecular Biology and Genetic Engineering, Protein chemistry, Bioinformatics, Cell culture, Instrumental analysis (Ph D students).

Pharmaceutical Biotechnology, Molecular Biology, Biologicals, Pharmacognosy, Plant Cell, Tissue and Organ Culture (Pharm D students).
